NAS RA INTERNATIONAL COOPERATION

National Academy of Sciences
Republic of Armenia

Hi There!

International activity of the National Academy of Sciences of the Republic of Armenia (NAS RA) is aimed at promoting the active participation of scientists of the system in international contracts and grant programs, conferences and other scientific/scientific-and-innovative events. Due to its activity, the Academy has been highly appreciated by the international scientific community and has deserved wide recognition.

About us

Over the 80 years of its existence, NAS RA has contributed greatly to the scientific and technological progress of Armenia, to the development of the economy, the strengthening of defensive capacity, and the formation of a progressive society.

Today, the Academy with its system of organizations is considered a powerful scientific potential, the effective use of which will contribute substantially to the sustainable development of the Republic of Armenia, strengthening the state and improving the welfare of society.

As a state scientific organization NAS RA unifies the scientific and research institutes, subsidiary services and governing body - the Presidium of the Academy includes more than **34 scientific institutions and other organizations.**

President's Message

The National Academy of Sciences of the Republic of Armenia is one of the enduring values of the Armenian people, created over the centuries of their existence, and symbolizes their profound respect and craving for science and culture, which is a guarantee of progress and a powerful survival means.

At NAS RA, we are committed to fostering global partnerships that advance knowledge, innovation, and cultural exchange.

Our international cooperation initiatives reflect our dedication to creating a collaborative environment where academic excellence transcends borders. Together with our global partners, we aim to inspire progress, cultivate mutual understanding, and contribute to a brighter, more connected world.

We invite you to join us in this exciting journey of collaboration and discovery!
